

## Origin Storage Thecus N5200XXX-15000 Network Attached Storage (NAS) 15TB 5X3TB 7200rpm 5 Bay

The XXX line of Thecus NAS is leading the way in catering to your needs. With Xtreme power, Xtreme function, and Xtreme value, these Thecus NAS deliver. Whether it be a strong product for a budget price or a high-powered NAS for the tech-savvy, each model is extremely geared towards fitting you. From an extremely speedy 2-bay for your home office to an extremely powerful 8-bay rackmount for even the most demanding enterprise, Thecus XXX NAS are ready for you. With the pace of technological improvement accelerating every day, it is essential for products to have staying power. Data capacity and storage needs are expanding quickly and your NAS needs to be able to adjust to your future. The N5200XXX is capable of storing up to 15TB of data, which gives you all the capacity you will need for many years to come. This NAS is perfect for small and medium businesses with increasing data storage needs, as well as private web experts running web services such as FTP sites, web sites, or sharing hubs.

5 bays with 15TB of data capacity can supply businesses with serious data needs, but also provides flexibility for those with less extreme demands. With 5 bays available, it is easy to get started with 2 or 3 disks (that's still 6 or 9TB's of storage!) and add more disks as your needs increase. Libraries grow, files get larger, businesses develop; there are many reasons to allow yourself room to expand in the future. The extra bays can also house inactive spare disks that will automatically be activated as soon as they are needed. People from all walks of life are beginning to realize the value that NAS can give them and flexibility is extremely important. Having sufficient data capacity and expandability are extremely valuable, but it is equally important to have a NAS with speed that will pass the test of time. The N5200XXX runs the latest generation of Atom processors, the Intel Atom D525, and has a formidable 1GB of DDR3 memory. This makes it powerful enough to host hundreds of users, perform massive uploading and downloading operations with great speed, and run many functions simultaneously. The N5200XXX is a great solution for anyone in search of a long-term solution with expanding data needs.

<b>Processor</b>	Intel Atom (D525) 1.8GHz
<b>Memory (Maximum)</b>	1GB DDR3
<b>Hard Disk</b>	15000GB (5 x 3000GB) 7200RPM
<b>Operating Systems Supported</b>	Windows 2000/XP/2003/Vista/7 UNIX/Linux Mac OS X

### Features

- \* Extreme Speed
- \* Extreme Data Backup
- \* Extreme Power Management
- \* Extreme Protection
- \* iSCSI Thin Provisioning Support
- \* Online RAID Volume Management

#### CPU

Processor Intel Atom (D525) 1.8GHz

#### Memory

Memory (Maximum) 1GB DDR3

#### Storage

Hard Disk 15000GB (5 x 3000GB) 7200RPM

#### Storage: Included Array

RAID Format RAID Level 0, 1, 5, 6, 10, JBOD

## Origin Storage Thecus N5200XXX-15000 Network Attached Storage (NAS) 15TB 5X3TB 7200rpm 5 Bay

### Input

Buttons Power button LCM button (ENT,ESC,UP, DOWN)

### Interfaces Ports

RJ-45 Ports 2 x RJ-45  
USB Ports 5 x USB 2.0 (1 Front, 4 Rear)  
eSATA Ports 1 x eSATA

### NAS

Network Transport Protocols TCP/IP, AppleTalk  
Network File Protocols SMB/CIFS, HTTP/HTTPS, FTP, TFTP, NFS v3, AFP

### System

Language Selection Web-based server management Interface Supports English, Traditional Chinese, Simplified Chinese, Japanese, Korean, French, German, Italian, Spanish, Russian Polish and Portugal  
Management Power management: Power on after power lose resume Spin down while idle time setup

### System Requirements

Operating Systems Supported Windows 2000/XP/2003/Vista/7 UNIX/Linux Mac OS X

### Electrical

Power Supply 200W AC Power Supply  
Cooling System Thermal sensor on processor temperature

### Environmental

Environmental Operating Temperature 5 to 40C - Humidity 0 to 80%

### Physical

LED Status Indicators Power(Blue) System Status : Busy (FW Upgrade)(Orange) HDD1-5 Activity/Fail(Orange/Red) WAN/LAN1 (Link : Green; Activity : Orange) LAN2 (Link : Green; Activity : Orange) USB (Copy LED: Blue)

### About Memory Express

Although we started out selling just Memory the best part of fifteen years ago, we have diversified organically over the years at the request of our customers. We specialise in Networking, Storage and Disaster Recovery and have the knowledge, experience and strategic partnerships to provide you with the service and value you demand - quality products, reasonably priced and delivered on time.

Memory Express can offer you a full range of installation and configuration services for hardware and software as well as detailed, accurate advice on all aspects of your IT projects. You'll be glad to know that we don't have a room full of school leavers trying to sell products they don't understand - all our staff are seasoned IT specialists and have an average length of service of over ten years. We won't just push you towards the solution we feel like selling; we'll help you to find the one you need.

Meanwhile, online, we offer one of the largest product ranges of any UK IT supplier. Showing near live stock, in depth product information and keen pricing, we're sure you'll find what you need. We also have matched memory upgrades for over 50,000 models of computer, server, printer, phone and camera, guaranteeing you the right memory, first time. All this is backed up by the same great service you'd expect when dealing with us over the phone. For our regular business customers, we provide T3, our corporate purchasing portal which provides a truly corporate focused buying experience.

We're conveniently located in Park Royal, London's Technology Business Park, allowing us to reach all areas of the UK quickly and efficiently. Many of our City based corporate clients benefit from same day delivery and we can offer next day delivery to established customers throughout the British Isles. Online delivery tracking and status information means that you need not worry about the whereabouts of your order.

We're proud to have built up a wide variety of partnerships with quality vendors and many of our staff hold certifications from top tier manufacturers including Microsoft, Acronis, Symantec and VMWare.

Our clients vary in size from SMEs to many of the UK's largest corporates, government departments, schools and universities, and we're pleased to say that most have been our customers for many, many years - we believe in long term business relationships, not turning a quick profit. Why not contact us now to see how we can help you get the quality of service they already enjoy?
